

# 2400i Series

## Bi-Fold Doors

Aggieville Parking Garage  
Manhattan, KS

### Horizontal Stacking | Outswing Bi-Fold Door | 4 1/8" Frame Depth

Manko's **2400i** series thermally broken bi-fold door can create a dynamic space, perfect for a lounge, restaurant or residence to take full advantage of exterior desirable conditions. The top hung, outswing only, configuration allows for up to 10 operable panels stacking at either side of the opening, and an optional swing door can be incorporated at the jamb location. The doors and frame incorporate a structural polyamide thermal barrier, ensuring maximum performance. Operation is smooth and secure, facilitated by concealed pivots, hinges with integral pull handles, and robust single-point drop bolt locking hardware at both the head and sill. Structural framing considerations will need to be addressed for the top hung system .

**Design and structural considerations will need to be addressed for the top hung system.**
